599941 Union Organiser

Oversees, organises, and promotes union recruitment, operations, mass meetings, and communications. Provides advice to union officials, delegates, and representatives, and represents union members in industrial relations disputes or other proceedings. Acts on behalf of their union members to negotiate working conditions, wages, and employment opportunities.

Specialisation

- Union Official

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 3: AQF Certificate III including at least two years of on-the-job training, AQF Certificate IV, or at least three years of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Oversees and promotes union operations
- Recruits new members to the union
- Advocates for reform or regulation of industry
- Provides advice to other union officials
- Develops effective structures, including union members' communications, at worksites
- Runs mass meetings with union members
- Identifies and develops new and existing delegates, and health and safety representatives
- Uses knowledge of legislation, awards, collective agreements, employment contracts, and wage payment systems to represent union members in industrial relations disputes and assist in disciplinary proceedings, tribunal, or court

- Represents union members in negotiations or at conferences
- Visits union members at their place of work to check conditions

713231 Articulated Truck Driver

Drives an articulated truck, requiring a specially endorsed class of licence, to transport goods, often over long-haul distances.

Registration or licensing is required.

Tanker Truck Drivers and Truck Drivers (General) are excluded from this occupation. Tanker Truck Drivers are included in Occupation 713232 Tanker Truck Driver. Truck Drivers (General) are included in Occupation 713131 Truck Driver (General).

Specialisations

- Livestock Haulier
- Logging Truck Driver
- Road Train Driver
- Vehicle Haulage Driver

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 3: AQF Certificate III including at least two years of on-the-job training, AQF Certificate IV, or at least three years of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Drives and manoeuvres articulated truck and trailer combinations
- Couples and uncouples trailer combinations as required
- Loads and unloads goods using specialised vehicles, such as side loaders
- Performs maintenance and repairs on the truck, utilising specialised mechanical knowledge, particularly when driving in isolated areas
- Maintains knowledge of road rules relating to haulage across all states and territories
- Operates relevant company and client applications to provide real time visibility and trip reports
- Manages cargo weights to comply with load limitations and ensures safe distribution of weight
- May transport livestock or dangerous goods, complying with relevant safety standards

731132 Plastics Production Machine Operator

Operates extruding, cable making, compounding, reclamation, injection moulding, and blow moulding machines to produce finished plastic products.

Specialisations

- Blow Moulding Machine Operator
- Extruding Machine Operator (Plastics)
- Injection Moulding Machine Operator (Plastics)
- Plastic Cabling Machine Operator
- Plastic Compounding and Reclamation Machine Operator
- Plastic Production Machine Setter

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Sets up and prepares machines ready for plastics production
- Sets injection moulding parameters to machinery, and places and aligns robots to prepare for robotic processes
- Operates controls to regulate temperature, pressure, speed, and flow of plastics operation
- Measures and loads raw plastic materials, items, and ingredients for mixing into machines and feeding mechanisms
- Threads uncoated wire and cable through plastic coating machines, around take-up reels, and through dies and cooling chambers
- Performs routine quality checks on products, such as dimensional checks, clarity of colour, and impact resistance
- Examines output for defects and conformity to specifications

731133 Reinforced Plastic and Composite Production Worker

Operates machines to apply gelcoat, colouring, and fibre-reinforced plastic to moulds to produce fibreglass and laminated products.

Specialisation

- Fibreglass Laminator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Sets up and prepares machines for reinforced plastics production
- Checks all templates, moulds, and cut-out patterns to be used in the manufacturing process to ensure that they conform to specifications
- Applies gelcoat, colouring, and fibre-reinforced plastic to moulds according to specifications
- Monitors and adjusts machine settings to ensure proper application of materials
- Ensures the correct applications of mixtures for effective setting of resins and gelcoats
- Checks completed products for conformance to specifications and to identify any deficiencies
- Repairs or modifies damaged or defective fibreglass parts to ensure they are fit for purpose

731134 Rubber Production Machine Operator

Operates machines to manufacture rubber products.

Specialisations

- Conveyor Belt Technician
- Rubber Belt Splicer
- Rubber Liner
- Tyre Retreader

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Monitors the functioning of rubber processing machinery producing products
- Sets up and calibrates rubber processing machines based on the specific production requirements
- Operates controls to regulate temperature, pressure, speed, and flow of operation to achieve desired rubber quality
- Measures and loads raw rubber materials, items, and ingredients for mixing into machines and feeding mechanisms
- Monitors operations, regulates material supply, and adds chemicals and colorants to mixture
- Examines finished rubber products for defects and conformity to specifications

731331 Paper and Pulp Production Operator

Operates machinery in a paper and pulp processing facility to process pulp and manufacture paper and pulp products, such as paper sheets, and paper or cardboard packaging.

Alternative title

- Paper and Pulp Machine Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Operates and adjusts the settings of paper and pulp production machinery to ensure consistent output as per the specifications
- Loads raw materials and chemicals into plant equipment to make and bleach pulp
- Operates machinery, such as blenders, agitators, and driers to process, sample, wash, and blend pulp
- Transfers pulp to storage tanks and operates machinery to agitate pulp to maintain consistency
- Loads pulp and additives, such as dye into paper making equipment or machines, and operates machinery to make paper and pulp products
- Monitors and controls the flow of materials throughout the pulp and paper making process
- Operates drier and calendar rolls, and imparts gloss and coating mixtures to paper or paper products

731332 Timber and Wood Production Operator

Operates timber and wood production machinery to perform tasks, such as cutting logs to standard sizes, veneer production and gluing, and testing and grading timber planks, woodchips, wooden boards and other wood products.

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Coordinates the loading and unloading of logs onto equipment and conveyors
- Operates timber and wood processing machines or plant equipment to strip, debark, and prepare logs for processing
- Operates machines and equipment, such as saws, planers, and sanders to process and cut logs and timber into desired sizes and shapes
- Operates machines, such as lathes and slicing machines to produce veneers, and laminates veneers using glue
- Inspects, measures, and grades planks and wood products to ensure they meet quality standards
- Monitors the wood drying process, which may involve the use of kilns, to ensure the wood reaches the specific moisture content
- Keeps records of timber and wood products processed, equipment maintenance schedules, and any production issues encountered

731431 Sewing Machinist

Operates industrial sewing machines to sew and finish garments and soft furnishings, such as curtains.

Specialisation

- Embroiderer

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Reads and interprets work orders and sewing patterns
- Guides fabric and materials through industrial sewing machines, ensuring accurate stitching
- Adjusts machine settings, such as tension, stitch length, and speed
- Trims excess threads and removes waste
- Inspects finished products for quality and makes necessary adjustments
- Performs routine maintenance on sewing machines, such as cleaning and oiling

731432 Textile or Footwear Production Machine Operator

Operates automated machines that process raw hides and skins, raw textile fibres, and dye, weave, and knit fibres to manufacture carpet, textile, or footwear products.

Specialisations

- Hide and Skin Processing Machine Operator
- Textile Dyeing and Finishing Machine Operator
- Weaving Machine Operator
- Yarn Carding and Spinning Machine Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Prepares textile or footwear production machines for operation to process raw hides, skins, and textile fibres
- Operates automated machines that dye and tan hides and skins, and dye textiles
- Operates automated machines that cut and machine leather and synthetic shoe uppers, and make shoes
- Operates automated machines that convert raw textile fibres into continuous untwisted and twisted strands of yarn for use in clothing, carpets, curtains, linens, and other fabrics
- Programs machines to position and feed fibre packages to produce carpets, linens, and other textiles
- Oversees process of tying and splicing ends to repair broken yarns

731931 Chemical Production Machine Operator

Operates machines to produce chemical goods, such as soaps, detergents, pharmaceuticals, toiletries, and explosives.

Specialisation

- Candle Maker

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Sets up and prepares machines to produce chemical goods
- Measures the ingredients used in chemical products to be mixed and blended
- Operates crushing machines or mills to grind and pulverise solid chemicals and other materials to a specified size suitable for processing
- Monitors the removal of the ground product from machines, and inspects and tests samples of products for quality and consistency
- Performs regular checks and basic maintenance on processing machines, and reports any faults
- Follows safety procedures and guidelines to ensure a safe working environment
- Records production data and maintains production logs

731932 Clay Products Machine Operator

Operates machines to manufacture clay products, such as bricks, tiles, insulators, porcelain, and pottery by shaping and firing clay.

Specialisations

- Brick Extruder Operator
- Porcelain Turner
- Slip Caster

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Sets up and prepares machines for clay product manufacturing
- Operates and controls clay processing machinery, including extruders, moulds, kilns, and drying equipment
- Inspects clay products for defects and quality control
- Loads raw clay materials into machines and feeds them through production
- Mixes clay and other materials according to specified formulas
- Assists in the development and testing of new clay product designs

731934 Crushing Machine Operator

Operates crushers and other machines to crush materials, ores, and minerals for processing or transport.

Registration or licensing may be required.

Specialisation

- Ore Crushing Machine Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Operates and maintains crushing machines and equipment to crush materials, such as cement, ore, rock, and coal
- Ensures proper feed rate of material for consistent operations
- Adjusts machine settings to achieve desired granularity and consistency of crushed materials
- Monitors the crushing process for any abnormalities and malfunctions, and makes required adjustments
- Dislodges and clears jammed materials or other items from machinery or equipment, and transfers crushed materials between work areas using loaders, excavators, or other earthmoving machinery
- Examines crushed materials visually or with hands to ensure conformance to established standards

731935 Glass Production Machine Operator

Operates machines to manufacture molten glass and shape glassware products, such as containers, sheet glass, structural and stained glass, glass lenses, and prisms.

Specialisations

- Glass Furnace Operator
- Glass Maker
- Glass Melt Operator
- Glassware Maker

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Understands the production specifications and sets up glass production machines to ensure precise production
- Monitors the melting and refining process of raw materials to form molten glass, and adjusts machine settings to control the temperature and flow of molten glass
- Changes, positions, and aligns moulds on glass production machines as per production requirements
- Inspects glass products for defects and ensures they meet quality standards
- Conducts regular inspections and basic upkeep of glass production machines to ensure optimal performance, while identifying and resolving mechanical issues
- Monitors and controls the production rate to meet production targets, and maintains production records, while reporting any issues or discrepancies

731938 Stone Processing Machine Operator

Operates machines to cut and finish stones for tiles, building blocks, and facings.

Specialisations

- Marble Cutter
- Stone Polisher
- Stone Sawyer

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Sets up and prepares machines for stone cutting and finishing
- Measures and marks stones according to specifications
- Loads and unloads stones into machines
- Operates and monitors machines to ensure stones are cut accurately and efficiently
- Inspects finished stones for quality and makes adjustments to machines as needed
- Uses hand tools to finish and polish stones
- Cleans and maintains machines to ensure proper functioning

731999 Machine Operators nec

This occupation group covers Machine Operators not elsewhere classified.

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Occupations in this group include:

- Amusement Ride Operator
- Drone Pilot
- Mine Controller (Autonomous Haulage)
- Plaster Caster
- Plaster Machine Operator
- Projectionist
- Remotely Operated Vehicle (ROV) Pilot

732131 Crane, Hoist or Lift Operator

Operates stationary and mobile cranes, hoists, lifts, and winches to lift, move, and place materials, equipment, and people in areas, such as building sites, factories, mines, sawmills, wharves, and shipyards.

Registration or licensing may be required.

Specialisations

- Crane Truck Operator
- Mobile Crane Operator
- Straddle Carrier Driver
- Tower Crane Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Operates controls for cranes, hoists, lifts, and winches to lift, move, and place materials, equipment, and people
- Inspects and maintains cranes, hoists, lifts, and winches to ensure they are in proper working condition
- Determines the weight and dimensions of loads to be lifted, and selects appropriate equipment and lifting methods
- Positions and secures loads using slings, chains, or other lifting devices
- Monitors and adjusts crane movements to ensure safe and efficient operation

732231 Engineering Production Worker

Performs a range of production process tasks to refine and treat metals and mineral ore, fire ceramics, and operate plant to produce and finish metal products, such as rods, tubing, and structural shapes and moulds for casting.

Specialisations

- Alumina Refinery Operator
- Brake Press Operator
- Computer Numerical Control Machine Operator
- Foundry Operator
- Furnace Operator (Metal)
- Laser Operator
- Sheetmetal Worker (Second Class)
- Tool Setter

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Interprets engineering production schematics and blueprints
- Operates and monitors rolling plant, machinery, and equipment to process mineral ore
- Operates and adjusts production plant to shape metal stock and castings, and cut sheet metal
- Operates computer-controlled production plant
- Operates furnaces and quenching plant to smelt and change the structure of metals
- Operates welding and electroplating plant
- Casts molten metal and operates plant to draw metal wire through dies
- Uses kilns and ovens to fire ceramics

732331 Miner

Operates plant to excavate, load, and transport coal, ore, rock, and other minerals in an underground or open-cut mine.

Registration or licensing may be required.

Alternative titles

- Mining Operator
- Mining Plant Operator

Specialisations

- Ancillary Operator (Mining)
- Bogger Operator
- Coal Miner
- Dragline Operator
- Gold Miner
- Iron Ore Miner
- Opal Miner
- Underground Truck Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Operates mining equipment to excavate coal, ore, rock and other minerals
- Loads materials onto trucks or conveyors for transportation
- Inspects equipment and performs routine maintenance and repairs
- Follows mining plans and procedures to extract minerals from the earth
- Assists in the installation and maintenance of underground support systems
- Collects and analyses samples to determine the quality and composition of minerals

732332 Shot Firer

Assembles, positions, and detonates explosives at a mining or demolition site.

Registration or licensing is required.

Specialisations

- Blast Crew Operator
- Charge Up Operator
- Drill and Blast Supervisor

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Inspects and prepares blast sites for explosives
- Assembles and positions explosives according to safety regulations and blast plans
- Monitors weather conditions and adjusts blast plans accordingly
- Conducts pre-blast checks and ensures that the blast area is clear
- Detonates explosives using appropriate methods and techniques
- Inspects blast sites after detonation to assess the effectiveness of the blast and ensure safety standards are met
- Tests and maintains detonation equipment

732431 Waste Water or Water Plant Operator

Operates plant to store, distribute and treat water, including purifying water for human consumption and removing wastes from sewage.

Specialisations

- Dam or Reservoir Operator
- Water or Waste Water Networks Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Monitors and operates waste water or water treatment processes and equipment
- Adjusts chemical dosages and treatment processes to maintain water quality
- Monitors and controls water storage and distribution systems
- Inspects and maintains waste water or water treatment equipment and machinery
- Responds to emergencies at a waste water treatment facility, and takes appropriate action
- Collects samples of water or waste water for testing
- Collects and analyses data on water quality and treatment processes
- Prepares reports on plant operations and water quality

741131 Agricultural and Horticultural Mobile Plant Operator

Operates agricultural and horticultural plant to clear and cultivate land, and sow, fertilise, spray, and harvest crops.

Registration or licensing may be required.

Specialisations

- Harvester Operator (Agriculture)
- Tractor Operator

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Prepares and positions agricultural and horticultural plant for operation
- Operates tractor-drawn and self-propelled plant to plough land, and sow, fertilise, cultivate, and harvest crops, and avoids damaging crops
- Calibrates and monitors agricultural and horticultural plant performance, including adjusting speed, height and depth of implements, as well as distribution or collection rates as needed

821131 Asbestos Removalist

Identifies, safely removes, and disposes of asbestos found in buildings, building materials, such as tiles, flooring panels, and ceiling sheets, and other structures through the use of containment enclosures and specialised equipment, such as airless sprayers and injection equipment.

Registration or licensing is required.

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Identifies the presence and type of asbestos in buildings and in building materials, pipes, boilers, and other structures
- Sets up containment enclosures and safety measures to prevent the spread of asbestos fibres during removal
- Operates specialised equipment, such as airless sprayers and injection equipment, to safely remove and seal asbestos in secure containers for safe disposal, ensuring no leakage of asbestos fibres
- Cleans the site after asbestos removal using specialised vacuum cleaners and other cleaning tools to ensure that there are no residual asbestos fibres
- Conducts air monitoring and clearance testing to ensure the area is safe for reoccupation after asbestos removal

821231 Construction Rigger

Assembles and installs rigging gear, such as cables, ropes, pulleys, and winches, to lift, lower, move, and position equipment, structural steel, and other heavy objects.

Registration or licensing may be required.

Specialisations

- Advanced Rigger
- Crane Rigger
- Telecommunications Rigger

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 4: AQF Certificate II, AQF Certificate III, or at least one year of relevant experience

New Zealand

- Skill Level 3: NZQF Level 4 qualification, or at least three years of relevant experience

Main tasks

- Determines the necessary type and size of rigging gear, and inspects and prepares the appropriate rigging gear for the task
- Attaches rigging gear to equipment, structural steel, or other heavy objects
- Builds and dismantles cranes and hoists
- Uses mechanical load shifting equipment and associated tools, such as winches, hoists, and other lifting equipment, to lift, lower, move, position, and secure objects
- Maintains and repairs rigging gear

832231 Product Assembler

Puts together components and subassemblies that go into the mass production of jewellery and precious metal articles, joinery products, metal products, electrical and electronic equipment, automotive components, and other goods in a factory or production line.

Specialisations

- Automotive Assembler
- Electrical and Electronic Assembler

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 5: AQF Certificate I, or compulsory secondary education

New Zealand

- Skill Level 5: NZQF Level 1 qualification, or compulsory secondary education

Main tasks

- Interprets work orders, specifications, diagrams, and drawings to determine assembly instructions and materials needed
- Gathers, organises, and aligns parts and components for assembly, and bolts, screws, or rivets components together
- Assembles components and subassemblies, either by hand or by using power tools, soldering, or micro-welding equipment
- Checks that sub-assemblies are securely connected and meet the required specifications for further assembly in production line
- Identifies and resolves any issues or defects in the assembly process

839136 Paper and Pulp Process Worker

Assists and performs routine tasks in a paper and pulp processing facility, such as placing logs onto conveyors for chipping, and loading woodchip and pulp for processing.

Alternative title

- Pulp, Paper Making and Paper Products Labourer

ANZSCO skill level

This occupation has a skill level corresponding to the qualifications and experience below.

Australia

- Skill Level 5: AQF Certificate I, or compulsory secondary education

New Zealand

- Skill Level 4: NZQF Level 2 or 3 qualification, or at least one year of relevant experience

Main tasks

- Places logs onto conveyors for chipping, and loads woodchip and pulp onto processing equipment
- Assists production operators in the operation of paper and pulp processing machinery and equipment to manufacture paper sheets, paper or cardboard packaging, and other products
- Assists with controlling the flow of materials throughout the production process
- Inspects paper products and reports any inconsistencies, such as holes and discoloration
- Sorts finished paper products and relocates them to storage areas for transportation
